

Dear all IB international students,

Arcada has a new internship mode for international students, this helps you to get a good internship in Finland. The first company that we launched the internship model with was Quuppa and 2 interns started there in September. The feedback has been great and the second interns are already chosen and will start there in January. I contacted you with one new company a few weeks ago and now I have the pleasure to offer you yet another internship possibility. This time it is a **logistics company in the Shipping industry called C&C Port Agency Finland** (<https://www.portagency.fi/>) and they offer a position as an **Junior Port Agent** (see below for more info on the position), this position is especially for **Logistics students**. This means that this year **3 international logistics students** will be able to participate in this pilot project and get their 30 study credits from 20 weeks of internship. We will now choose candidates for the two first internship periods. **These internships are non-paid but gives you 30 study credits and experience of working in a Finnish company as well as a credible Finnish name on your CV.** At the end of your 20 week internship you will, during your last 2 weeks, be the trainer of the next intern, a good opportunity to develop your skills as a trainer.

The internships' starts:

1st intern: January 9th – May 29th

2nd intern: May 15th – October 2nd

These two internships are applied for at the same time. Please note in your application which is your preferred time, look at your study plan and see how it fits your studies. Arcada will also be flexible if you have to study and work at the same time.

Application time:

November 14th – November 28th

Interviews for applicants will be held on December 7th at 1-3pm at the company's office in Helsinki.

Send your application letter and CV to linn.hongell@arcada.fi

Best regards, Linn Hongell

Internship – Junior Port Agent

Are you interested in an internship in an international organization? We are looking for an intern to work as a Junior Port Agent at C&C Port Agency Finland. We offer versatile tasks that will give you a good insight into the Shipping industry. We work with international clients and our working language is English. Most of the work will take place during business hours but some tasks can be during evenings and weekends, especially in the Summer months when a lot of cruisers visit Finland. The intern position is based in Helsinki. It is also possible to write your thesis for C & C Port Agency.

Main tasks include:

- coordinating schedules for vessels
- representing the vessel
- handling traffic forms
- tasks connected to the client's needs (guest, crews and ship)
- communication with the crew and the port
- internal and external communication

We value:

- persistent, hands-on and can-do attitude
- good interpersonal skills
- service-minded, proactive and being able to work independently and with flexible working hours
- excellent writing and speaking skills in English
- knowledge of Finnish, Swedish and/or Russian is considered an advantage
- drivers license is an advantage
